Save the receipt, warranty and these instructions. It is important that you read the entire manual to become familiar with this product before you begin using it.

This oil drain dolly is designed for certain applications only. The distributor cannot be responsible for issues arising from modification. We strongly recommend this oil drain dolly not be modified and/or used for any application other than that for which it was designed. If you have any questions relative to a particular application, DO NOT use the oil drain dolly until you have first contacted the distributor to determine if it can or should be performed on the product.

For technical questions please call **1-800-222-5381**.

## INTENDED USE

Use this oil drain dolly for draining oil and fluids into the large 18 gallon tank, which is translucent for viewing fluid levels. Included pump makes it easy to quickly move fluids to another tank for fluid transfer, recycling and more.

## TECHNICAL SPECIFICATIONS

Item	Description
Capacity	18 gallons
Funnel Width	17in. diameter
Wheels	(4) 3in. ball bearing casters
Dimensions	16.73in. x 16.54in. x 68.9in.

## GENERAL SAFETY RULES

**WARNING:** Read and understand all instructions. Failure to follow all instructions listed below may result in serious injury.

**CAUTION:** Do not allow persons to operate or assemble this oil drain dolly until they have read this manual and have developed a thorough understanding of how the oil drain dolly works.

**WARNING:** The warnings, cautions, and instructions discussed in this instruction manual cannot cover all possible conditions or situations that could occur. It must be understood by the operator that common sense and caution are factors which cannot be built into this product, but must be supplied by the operator.

## SAVE THESE INSTRUCTIONS

## WORK AREA

- **Keep work area clean**, free of clutter and well lit. Cluttered and dark work areas can cause accidents.
- **Keep children and bystanders** away while operating an oil drain dolly. Distractions can cause you to lose control, so visitors should remain at a safe distance from the work area.
- **Be alert of your surroundings.** Using an oil drain dolly in confined work areas may put you in a dangerous situation.

## PERSONAL SAFETY

- **Stay alert**, watch what you are doing and use common sense when using an oil drain dolly. Do not use an oil drain dolly while you are tired or under the influence of drugs, alcohol or medication. A moment of inattention while operating an oil drain dolly may result in serious personal injury.
- **Dress properly.** Do not wear loose clothing, dangling objects, or jewelry. Keep your hair, clothing and gloves away from moving parts. Loose clothes, jewelry or long hair can be caught in moving parts.
- **Use safety apparel and equipment.** Use safety goggles or safety glasses with side shields which comply with current national standards, or when needed, a face shield. Use a dust mask in dusty work conditions. This applies to all persons in the work area. Also use non-skid safety shoes, hardhat, gloves, dust collection systems, and hearing protection when appropriate.

## OIL DRAIN DOLLY USE AND CARE

- **Do not modify the oil drain dolly in any way.** Unauthorized modification may impair the function and/or safety and could affect the life of the equipment. There are specific applications for which the oil drain dolly was designed.
- **Always check for damaged or worn out parts before using the oil drain dolly.** Broken parts will affect the oil drain dolly operation. Replace or repair damaged or worn parts immediately.
- **Do not exceed the oil drain dolly capacity.**
- **Use the oil drain dolly on flat and level surfaces** capable of supporting the oil drain dolly and its maximum load. Pulling or pushing a load on a slanted or uneven surface can result in loss of control.
- **Store idle oil drain dolly.** When the oil drain dolly is not in use, store it in a secure place out of the reach of children. Inspect it for good working condition prior to storage and before re-use.
- **Dispose of waste oil in accordance with local regulations.**

## ASSEMBLY

(See parts breakdown for reference numbers.)

Connect funnel (1) to the height adjustment upper tube (2).

Insert the lower tube (3) into the polyethylene reservoir (6) and secure with the tightening screw (4).

## OPERATION

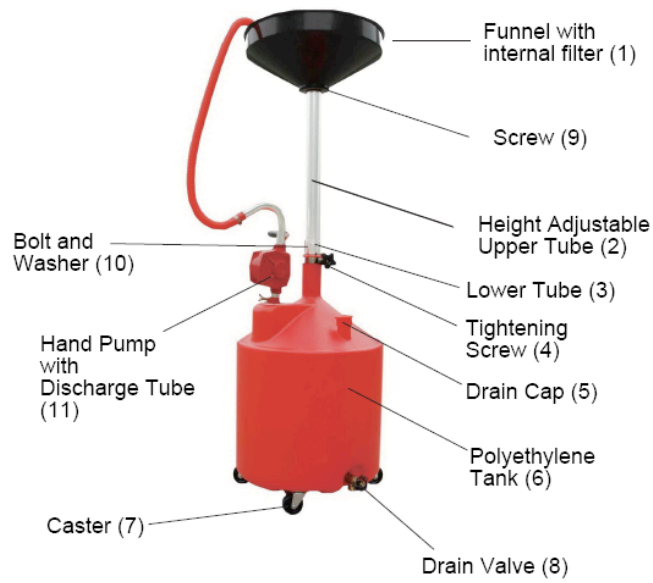

**WARNING:** Dispose of waste oil properly. Always check and comply with any local or state requirements or regulations.

1. Place oil drain dolly under the equipment to be drained. Raise the funnel (1) beneath the equipment drain valve or vent.
2. When the draining is complete, lower the drain funnel before removing the dolly from underneath.
3. Discharge the waste oil from the bottom drain valve, or use the hand pump provided.
4. Disconnect the funnel (1), the upper tube (2), and lower tube (3) from the reservoir (6) and store.

## MAINTENANCE

- **Maintain your oil drain dolly.** It is recommended that the general condition of any oil drain dolly be examined before it is used. Keep your oil drain dolly in good repair by adopting a program of conscientious repair and maintenance. If any abnormal vibrations or noise occurs, have the problem corrected before further use. Have necessary repairs made by qualified service personnel.
- **Clean the funnel and reservoir regularly for proper function.**
